

Semester Class Schedule

Research the college of your choice, and create a weekly schedule for yourself including 13-15 hours of class.

Include the class number/name, professor's name, building/room number and block off the time. Make sure you look at a map of the campus to make sure you can get from class to class in the time you have between classes. Plan on classes ending 1-3 minutes AFTER their time, and include 2-3 minutes to collect your books. **You must include at least 3 courses toward your major, or general university requirements. Highlight these in yellow.**
